Card-on-File Agreement

First individual appointment

Dr. Mark R. Dell, Psy.D. | 609-439-6526

Saving your card costs $0. Use the secure Stripe link Dr. Dell sends you. Dr. Dell will confirm your first appointment after you save your card and sign this agreement. This replaces the first-appointment prepayment terms in your registration packet.

If you attend, your first appointment costs $240. You can pay online by the day of your visit. If you pay in full, Dr. Dell will make no additional charge. Dr. Dell may charge any unpaid balance to your saved card after the session.

If you miss the visit or cancel or reschedule with less than 48 hours' notice, the fee is $240. Dr. Dell may charge your saved card after the missed visit or late change. Any payment already made for that appointment counts toward the fee.

To avoid the fee, call 609-439-6526 at least 48 hours before the appointment starts. If you cancel or reschedule on time, you may request a refund or transfer any advance payment to the rescheduled visit. If Dr. Dell cancels, Dr. Dell will refund any advance payment for that visit.

Your authorization. By signing below, the cardholder authorizes Stripe to save the card and Dr. Dell to charge it under these terms, including when the cardholder is not present. **The total charge will not exceed $240. This authorization covers this appointment only.** The cardholder may withdraw authorization by calling before a charge is processed. Any fee already owed remains due.
